

Varna-route - 1

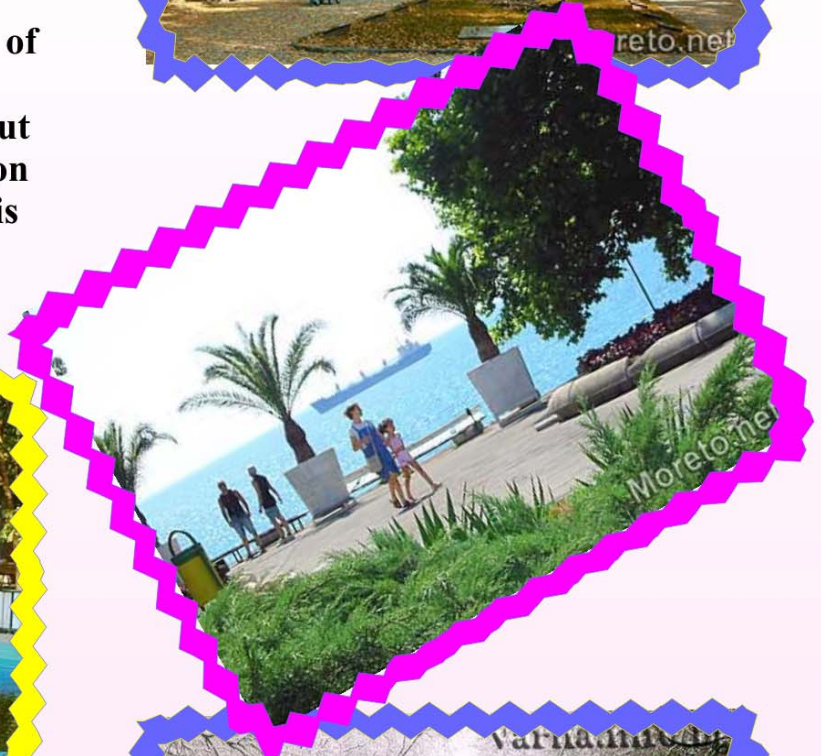

The route starts from the entrance of the Sea garden.

The Sea Garden

The Sea Garden is one of the symbols of Varna. It has the glory of the most beautiful park on the Balkans. The garden's area is about 30 000 sq. M. By order and decision of the mayor in the garden there is a lot of memorials of people who were made much

This is calm, pleasant, quiet and beautiful place with pure air, singing buds (even in the winter) and many benches where you can sit and rest, talk to a friend or just to rely the nature.

The Planetarium

It was created by Nikolai Petrov and opened on 1968. There is modern technique, telescopes and field glasses for education and watching on the planets and the sky.

The Aquarium

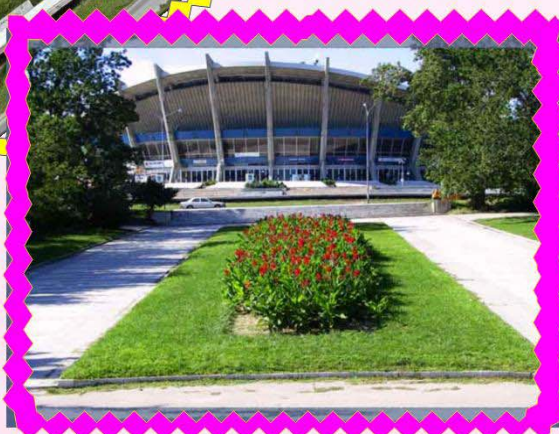

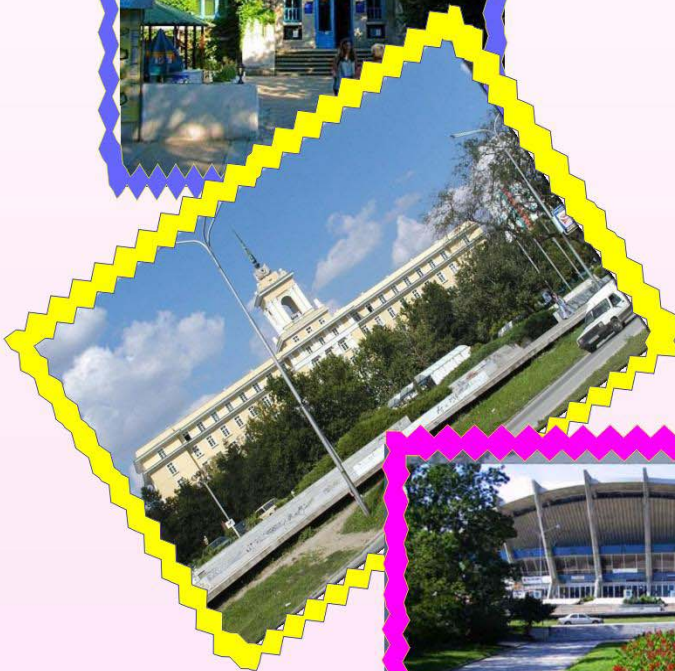

It was built in Varna in 1912. There are all kinds of The animal and plant life of Black Sea.

The Palace of culture and sports

The Palace of culture and sports PLC., Varna – a symbol of the sea capital of Bulgaria, is situated on the highway connecting the city of Varna with “Sts. Konstantin and Elena”, “Zlatni Piasaci” and “Albena” resort complexes. 350 meters from the seashore, the Palace impresses with its unique architecture and multi-functionality.

Visited daily by the citizens and guests of the city, The Palace of culture and sports is an attractive center for organizing national and international business, sports and cultural activities.

The Zoo

One more great place for enjoy is the Zoo. It was opened in 1961 and it's first inhabitant was a bear named Maxim.

Later there were delivered many other animals with the help of a Varna hunting association.

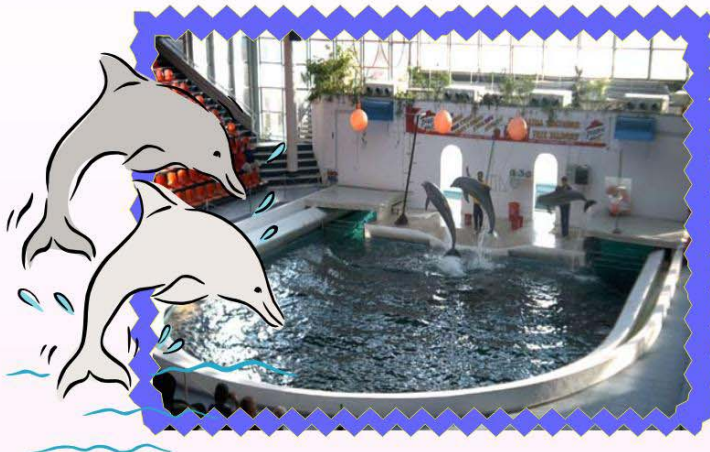

Terrarium

Varna Terrarium has one of the most diverse collections in Bulgaria - more than 40 different kinds of exotic animals from all over the world and many interesting and rare Bulgarian species. The display includes both vertebrates (10 kinds) and invertebrates (more than 30 kinds):

Dolphinarium

A dolphinarium is an aquarium for dolphins. The dolphins are usually kept in a large pool, though occasionally they may be kept in pens in the open sea, either for research or for public performances. Some dolphinariums consist of one pool where dolphins perform for the public, others have expanded into much larger parks, keeping other marine animals and having other attractions. These larger parks are often not considered to be dolphinariums themselves, but marine mammal parks or theme parks that include a dolphinarium. A dolphinarium can also be part of a zoo.

The Beach

The small, but exciting Bulgaria has the best beach resorts on the Black Sea. Known as a beach holidays

destination for many years now Bulgaria was constantly developing the existing resort facilities, so finally there is a huge variety of holiday places from huge international beach resorts to small yet undiscovered villages along the coast.
